

Cleve Momanyi

Software Developer

UI/UX-focused Software Developer specializing in intuitive, visually appealing, and functional interfaces. Skilled in wireframing, prototyping, and front-end development, with strong leadership, teamwork, and problem-solving abilities to drive seamless user experiences.

 Nairobi County, Kenya

Work Experience

Frontend Developer Intern • Statsspeak

Developed and optimized the company's website and software products, ensuring responsive and user-friendly interfaces. Collaborated with designers and backend developers to enhance UX/UI, implemented interactive features, and improved site performance. Gained hands-on experience in modern frontend frameworks and best practices.

July 2024 - December 2024

Recent Projects

<div></div> <div>Pendeza Online Store</div> <div> VERCEL</div> <div>Pendeza Online Store</div> <div>Read this on wibe-studio-</div>	Developed Pendeza Digital Store, a modern e-commerce platform combining sleek GSAP animations with bold design aesthetics. Built using React and Tailwind CSS to deliver an engaging shopping experience that drives user retention and conversions.
<div></div> <div>Read Masters Platform</div> <div> VERCEL</div> <div></div> <div>Read Masters</div> <div>Give your child the gift of reading. Read Masters is a platform that helps children learn to read and write.</div>	Engineered ReadMasters, a gamified learning platform that incentivizes scholarly reading habits through rewards. Built with Next.js, TypeScript, and React for robust performance, while leveraging Prisma and PostgreSQL to manage user progress and prize distribution seamlessly.
<div></div> <div>My Personal Portfolio</div>	Designed and developed a modern, visually engaging portfolio showcasing my skills and projects. Built with Next.js for performance, GSAP and Framer Motion for smooth animations, and designed in Figma to ensure a sleek and intuitive user experience.
